Testimonials

Since the training, our collection, acquisition, and de-accessioning policies have been updated and in certain cases created.

I wish we had a program like DHPSNY in Pennsylvania!

Thank you! Your help gives us insights and encouragement.

I had no background in archives and have been charged with the task of organizing 60 years of our theater's history. This workshop was an excellent introduction for me

These workshops are superb ... archival basics are not always intuitive ... I will encourage anyone to attend.

We are so fortunate to have established a relationship with DHPSNY ... DHPSNY has truly been impactful on our archives and archival practices.
